

OUR COMMITMENT TO OUR COMMUNITIES

ASH GROVE TERRITORY IS A LOT OF GROUND TO COVER – FROM THE MIDWEST HEARTLAND TO THE SHORES OF THE PACIFIC.

And along the way there are a lot of buildings to be repaired and restored, renovations to be made and new structures to be built – schools, churches, museums, clinics, youth clubs and civic centers.

In the last fifteen years alone, the Sunderland Foundation has contributed over \$37 million, ranging from \$150 to a small public school foundation to \$1,000,000 to a health care foundation in Kansas City.

In addition, the Ash Grove Charitable Foundation has awarded over \$1.5 million to causes near and dear to employee hearts. All of this in addition to the countless hours spent by individual Ash Grove employees.

So wherever the time and money is allocated – and for whatever kind of project it supports – the aim is always the same: to build and serve; to create and contribute.

And through generosity to others, bring our communities together in common causes.
